Suggestions from Students

- Conduct internships, so that we get certified with the same and also gain more skills.
- Give assignments, records and projects at right time in the semester so that students have enough time to prepare for it.
- Conduct more number of workshops, so that we can learn more skills and practical knowledge.
- Extra-curricular programs or activities should be conducted frequently, so that the student can enjoy their college life along with learning.
- Use better graphics and visual media to engage students well.
- Try to reach every student and clarify their doubts.
- Make teaching a two-way interaction.
- 6. Please provide us good lab facilities, many systems are not working and we are unable to complete programs.
- Maintain cleanliness in the classrooms. Window curtains are very dirty. Please maintain them clean.
- Focus a little bit on extra-curricular activities. It would be great, if we get a focussed training for placements and help in getting internships.
- We request our principal to register our college for NCC. Students who are interested will join immediately and slowly the count will increase in future.
