	<b>ANNEXURE</b>	<b>37-43</b>

- It is advisable to increase quick assets to maintain a standard ratio.
- Company must try to use working capital effectively for generating sales.
- Company has to increase net sales for increasing profitability of the entity and higher profitability will attract shareholders.
- they should give more importance while they are investing money in different securities.

### 5.3 conclusions

The study mainly concentrates on the analysis of financial performance and soundness of the firm. The study is conducted to analyse the liquidity solvency and profitability of the firm. From the study of financial performance it can be concluded that Tata steel ltd has satisfactory position in its operating profit but the firm needs to improve its liquidity and solvency. If the firm continues to perform with more efficiency and determination it can achieve greater success in near future.
